

HEPA Extractor/Vacuum

specifications

P42015-SAWAF (446351)

Motor Head:

120V, 2 Stage, 2.3 HP By-Pass
115 CFM - Waterlift 110"

Current: 11.0 AMPS

Power Cord:

30 Ft, 14/3 Wire Grounded
Safety Yellow

Vacuum Tank:

20 Gallon Recovery

Ring Tank:

10 Gallon Solution

Pump:

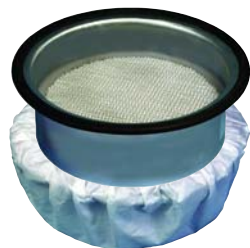

100 PSI, with Inline Filter

Includes:

15 Ft Vacuum/Solution
Hose-in Hose and
Stainless Steel Wand & Head

Optional Tools:

17" Crevice Tool (446319)
4" Hand Tool (313890)

HEPA Filter System

Large HEPA Filter

Rated with a minimum efficiency of 99.97% @ 0.3 microns. Tested using the HOT DOP method @ 100 CFM.

2 Ply Intermediate Filter

For protection and extended life of the HEPA filter

P42015-SAWAF

This unique extractor/vacuum system is equipped with a HEPA filter system, and designed to remove hazardous material safely from carpeted and hard surface flooring. Solution is sprayed onto the surface, contained and vacuumed up in one pass.

Powerful 2.3 HP Motor Head

Polished cast aluminum head with 2 Stage, by-pass motor, top handle and exhaust fitting.

Push Handle

1" diameter chrome plated steel.

Steel Extender

Holds the HEPA filter and 2 ply intermediate filter.

Heavy-Duty Clamps

Chrome plated spring steel, extra wide to ensure a positive vacuum seal.

Hose-in-Hose

15 ft solution & recovery.

Recovery Vacuum Tank

20 gallon, rotationally molded of high-impact plastic.

Gate Valve w/Hose Fitting

Quick evacuation of liquids directly from tank or using a vacuum hose.

Two - 3" Front Casters

Ball bearing swivel for excellent mobility.

Solution Ring Tank

10 gallon rotationally molded of high-impact plastic with 100 PSI pump, converts vacuum to an extractor.

Two - 8" Rear Wheels

Heavy-duty non-marring, mounted on 1/2" diameter solid steel axle.

Specially Designed Cleaning Attachment Includes

15 Ft Hose-in-Hose Vacuum and Solution Hose, Stainless Steel Wand with 2-Jet Extraction Head

Optional Stainless Steel Tools

4" Hand Tool

Ideal for cleaning upholstery. The spray jet is built into the vacuum shoe.

17" Crevice Tool

Designed to clean in hard to reach areas. The built-in spray jet will not create airborne.
